

Late Policy

January 1, 2020

Out of consideration to our other patients and to be respectful to their time we have established a late policy.

If you are a new patient to our practice and you arrive more than 15 minutes late with completed paper work or less than 15 minutes late without completed paperwork, you may be rescheduled or seen at a later time if available.

If you are an established patient and arrive more than 15 minutes late for your annual or problem visit you may be rescheduled or seen at a later time if available.

In addition, we request you give a 24 hour notice for any appointment cancelations or rescheduling, so that we are able to accommodate other patients.

Thank you for your consideration and understanding in this matter.

Zubritzky and Christy OB-Gyn
